ANNEXURE - I

1. Surveillance and Containment

Local Authorities i.e., District Collector/ Municipal Commissioner shall carefully demarcate and declare the containment zones, at the micro level taking evidence-based decision as per the following parameters:

- **Quarantining** and testing individuals suspected to be positive including contacts of SARS-CoV-2 positive persons, SARI cases, persons with flu like symptoms etc. and ensuring that they are not mobile and thus able to spread the infection
 - **Isolating** all those who are positive, tracing their contacts, quarantining and testing them.
 - where there are clusters of cases, simply quarantining individuals or families will not help. In that case, **containment zones** with clear boundaries and stringent controls will be required to ensure that the infection does not spread outside. This will be implemented as per SOPs of the Ministry of Health & FW, GoI / Department of Health & FW, GoO. This would mean a large geographical area like a city or district or well-defined parts thereof, where cases are high and spiraling up, gets contained physically, However, regulated movement of public transport would be permitted.
- I. **Evidence Based Decision:** The decision on where and when to go for large Containment Zone (CZ) has to be evidence based and done at the District/ Municipality level after proper analysis of the situation, such as; the population affected, the geographical spread, the hospital infrastructure, manpower, the ease of enforcing boundaries etc.
 - II. However, in order to facilitate objective, transparent, and epidemiologically sound decision making, the following broad-based framework to be followed in selection of areas:
 - III. The areas requiring **Intensive action and local containment connotes** specific and well-defined geographical units such as cities/ town/ part of the towns/ district headquarters/ semi-urban localities/ municipal wards/ panchayat areas etc.

Sl No	Parameter	Thresholds
1	Test positivity	Test positivity of 10% or more in the last one week
OR		
2	Bed occupancy	Bed occupancy of more than 60% on either oxygen supported or ICU beds

The Containment Zones will be notified by the respective District Collectors/ Municipal Commissioners and information will be shared with MoHFW. The notification shall be uploaded by the District Collector and by the Municipal Commissioner on their websites. Awareness shall be created in communities on COVID-19 appropriate behavior.

2. Testing, Tracking and Treatment

- i. Districts Authorities/ Municipal Corporations will continue with the strategy of **'Test-Track-Treat-Vaccinate'** and **implementation of Covid Appropriate Behavior across the District/ Municipal Corporation** as the ongoing strategy for the management of COVID-19.
- ii. Ensure **adequate testing and door to door case search** in the area through adequate number of teams formed for such purpose.
- iii. Plan for **testing of all clinically resembling** cases of Influenza like illness (ILI) & SARI to be prepared.
- iv. Testing shall be carried out as per prescribed protocol. The proportion of RT-PCR tests in the total mix should be scaled up to the extent possible.
- v. Quick isolation of COVID-19 patients shall be ensured in treatment facilities/ home (subject to fulfilling the home isolation guidelines).
- vi. Clinical interventions and clinical Management protocol, as prescribed/ required shall be clearly understood and administered.
- vii. Effective infection, prevention and control practices shall be followed in treatment facilities and by health care workers and professionals.

3. Clinical Management

- i. Analysis to be undertaken with respect to **requirement of health infrastructure** so as to **manage the present and projected cases (next one month)** and necessary action initiated to ensure sufficient oxygen-supported beds, ICU beds, ventilators, ambulances including creation of makeshift hospitals, as needed. Sufficient quarantine facilities shall also be re-activated.
- ii. Ensure that people satisfying protocol for home isolation only are allowed under **home isolation**. Create a **mechanism for their regular monitoring** through Call Centres along with **regular visit of surveillance teams** to such houses.
- iii. Specific **monitoring** shall be done for **high risk cases** and their timely shifting to the health facility. Similarly, **elderly and co-morbid contacts** of positive cases shall be **shifted to quarantine centres** and monitored.
- iv. Coordinate **availability of oxygen, other related logistics, drugs** etc. for smooth management of treatment of COVID patient.
- v. **Use of Oxygen for covid patients** shall follow the **guidelines issued by Department of Health &FW , Govt. of Odisha**.

4. Vaccination

Vaccination of the **eligible age-groups** shall be undertaken by the optimal capacity utilization of existing centers if required, **creating more vaccination centres**. Health and Family Welfare Department, Government of Odisha shall ensure implementation of the guidelines of vaccination drive of Government of India.

The District Administration, Police and Municipal Authorities shall ensure that the prescribed *containment measures* are strictly followed.

Covid Appropriate Behaviour- The District/ Municipal Authorities/ Police Commissioner, Bhubaneswar-Cuttack shall ensure strict compliance of Covid appropriate behaviour, such as use of face masks, maintaining physical distancing and hand hygiene. Crowd shall be regulated in all busy market places, weekly haats, public transport and other places.

5. Community Engagement

- i. Ensure **adequate advance information to community**, also highlighting the need for stringent containment actions so as to win their involvement and support.
- ii. Provide enough time for people movement for essential requirements etc. before announcing the large scale containment
- iii. Take necessary actions to **avoid misinformation & panic** in the community.
- iv. **Involve local level NGOs/CBOs/CSOs, Opinion Makers and subject experts** to create a positive environment and for sustained dialogue with the community.
- v. **Create wide publicity on early warning signals** and self-reporting so as to identify cases early and to prevent avoidable deaths among home isolation patients.
- vi. Give **wide publicity on the mechanism** whereby people can get themselves tested, details of available health facilities, requisitioning an ambulance etc (community based organizations should be encouraged to create WhatsApp groups for quick dissemination of information so that the individuals in need of prevention and/or care services do not suffer delay).
- vii. Ensure that **details of hospital beds and their vacancy status is made available on-line and also released to media on a daily basis.**
- viii. Details on **availability of oxygen, drugs, vaccine and vaccination centres**; including the guidelines related with use of Remdesivir/ Tocilizumab etc. be as widely publicized so as to create confidence in the community.
- ix. Community should be oriented about the feasibility of managing mild COVID-19 cases at home with appropriate monitoring of vital parameters such as temperature and oxygen saturation with the help of pulse oxymeter. Need for COVID Appropriate Behaviour including regulatory framework for enforcement should be widely publicized.
