## Chapter VI

### 6.1 RECONSTRUCTION & REHABILITATION

#### 6.2 Post Disaster Needs Assessment

- **Housing**:-Revenue & Disaster Management Deptt. Is the Nodal Deptt. for post disaster damage assessment of houses. Out of total **21985** houses of Kosagumuda Block **5643** houses are found to be Kutcha Houses. And out of **5643** Kutcha Houses **1985** houses are in flood effected GPs and most of these houses are in low lying areas. All these **5643** Kutcha Houses are vulunerable for heavy rain and during heavy rain 2022, **416** kutcha houses have been damaged. Under PMAY **16610** houses have been sanctioned in Kosagumuda Block out of that **16231** houses have been completed and **379** houses are incomplete and these **379** houses are vulunerable to heavy rain fall / flood. Upgradation of Kutcha Houses to Pucca Houses is essential to reduce the risk of hazards because in 2022 One person died due to Wall Collapse on account of heavy rain in Kosagumuda Block. **Rs 25,80,50,000 /-** is required for upgradation of these **1985** kutcha houses to Pucca Houses as a measure of recovery and reconstruction needs.
- **Infrastructure**:-Govt. Policy defines infrastructures as covering 7 sectors Rural Transport, Water Supply, Sanitation, Irrigation, Electricity, Community Buildings, Social Infrastructures and Solid Waste Infrastructres. The long term recovery goal for community infrastructure is to rebuild to better and more resilient standard. At present the number of ongoing projects and programs that aims to address the damage and recovery of infrastructures like maintenance of Roads and Bridges by PR & DW Deptt. RW Deptt. R&B, repair and mentainence of AWC, School Buildings, Health Infrastructures from 15<sup>th</sup> Finance Commission Grant and 5<sup>th</sup> SFC grant. Different activities are being taken through MGNREGS for the repair and improvement of infrastructure of the flood affected areas. To protect the river bank, flood protection measures are being taken up by Irrigation Deptt. through RIDF & State Grant. Repair and mentainence of residential school buildings has been taken up by ITDA. To provide safe drinking water to each HH of each GPs Jal Jivika Mission program is going on in Kosagumuda Block. 20 villages of 8 G.P.s are badly effected due to flood 2010,2015& 2019 also in heavy rain. Block Administration and District Administration has as given focus to construct Disaster Resilient structures in these villages which includes Hightening of Various Roads & Bridges of Chirma, K.Simla, Cherma, Ukiapalli G.P,

Stone Patching and Spur Construction on River Indravati, Implementation of Drainage System at Temera G.P., Installation of Solar Lights in these G.P.s

## Chapter VII

### 7. MITIGATION PLAN

**7.1 Sector wise Vulnerability Reduction Measures considering G.P plans:-** Hazard mitigation planning reduce loss of life and property by minimizing the impact of disasters. It begins with identifying local disaster and vulnerabilities that are common in their area. After identifying the risk the Panchayat/ Block develop long term strategies for protecting people and property from similar events. Mitigation plans are key to backing of Cycle of disaster damage and reconstructions. In Kosagumuda Block flood is the major hazard. Accordingly vulnerability reduction measures have been taken up in both GP Plans and Block Plans which includes construction of flood protection measures in river Indravati and Vhaskel by Irrigation Department, High Level Bridges by RD Deptt., Infrastructure activity by PR & DW Deptt. Etc.

### 7.2 Community level Mitigation Pogramme

### 7.7 Integration of the mitigation plan into GPDP:

Disaster Mitigation focus on the hazard that causes the disaster and tries to eliminate or drastically its direct efforts. Which includes construction of Dams, coordination of release of water from Indiravati / Vaskal to avoid flooding in downstream areas. The mitigation for drought includes controlling land use pattern, diversification of economic activities to act as insurance to offset losses in different sectors.

Mitigation can not be successful unless it has the backing and support of all concerned Administrative Deptt. and Community. So it is also becomes imperative to have integration with different developmental plans like, Integration of Block Disaster Management Plan (BDMP) with Gram Panchayat Development Management Plan (GPDP). As 20 villages of 8 G.P.s of Kosagumuda Block are vulnerable to flood and almost all Panchayat are drought affected. These are some flood specific mitigation plans which have been approved in the Panchayat Samiti meeting of Kosagumuda Block and will be integrated with GPDP. To mitigate drought crop contingent plan have been prepared by Deptt. of Agriculture and Farmers Empowerment and water harvesting structures have been created by Deptt. of Watershed and PR & DW Deptt.
